

RBM 800 New Edition

Ever since we introduced our first RBM 800 series chair, we have set the standard in comfort and functionality for work chairs. With the 800 New Edition we have renewed the design. Slightly neater with slimmer lines and more environmentally friendly materials. Just as before, the chair is designed with the user in mind. RBM 800 New Edition gives you a comfortable workday in a chair that supports and relieves the body in the right places.
